47 Castle Street, Geneva NY

September 26, 2023

Dear Mayor Valentino, Members of Council, Staff, Residents, and Visitors of the City of Geneva,

A budget document is not just a tally of the numbers, it is a guiding document for what our community values and a commitment from our city leaders to utilize the resources provided to enhance the City. As your City Manager, I carry many responsibilities but none, perhaps, as important as ensuring that money entrusted to us by taxpayers is spent wisely, strategically, and in response to community needs.

Today, I present you with a 2024 Recommended Budget that strives to do just that.

**This year budget theme is: Sustaining Our Investments**

In the year ahead, sustaining investments means that we have to honor the commitments that we have already made in response to some of the biggest challenges of our time: declining infrastructure; ongoing financial stressors for vulnerable populations; an unpredictable climate; and a lack of opportunities for those who want to live in our city.

This proposed spending plan recognizes that our community looks to their local government to provide the structural support for their daily lives. This spending plan supports this robust work by giving our teams renewed, and in many cases, ongoing, funding.

**Tough choices**

As proud as I am of this proposal, its creation was not an easy task. The 2024 Recommended Budget represents a deep and collaborative effort to understand financial forecasts, assess community needs, weigh sometimes competing priorities, and make difficult choices. It also honors a commitment to maintain the tax rate at the 2023 level, with acknowledgement that costs have increased meaning some services may be removed or be redefined.

The decisions are challenging because we're blessed with a workforce and highly engaged community who continually generates creative and enticing ideas to make local government even better.

While the possibilities for enhancing the City are endless, funding is not.

This is certainly true as we look to 2024. The availability of budgetary resources and additional revenues are balanced by slowing sales tax revenue growth, uncertainty around overall economic conditions, and our responsibility to fulfill many existing commitments to our community.

These commitments include continued funding for programs we have operated for many years while looking ahead at the future of our city. We're acutely aware of the importance of maintaining and, in some cases, replacing, the infrastructure that serves our community. And we must continue to support our most valuable asset – our workforce.

These commitments require us to be especially prudent in the upcoming year – and likely for the next couple of years.

We should, of course, explore new sources of funding, but we cannot simply hope that revenues increase or that taxpayers will bless us with more. We need to examine all work with a critical eye as we budget for resilience. All the while, we gain better insights into programmatic outcomes, we must be willing to make courageous decisions to stop programs or services that are not meeting our expectations or are no longer necessary while looking to explore new and innovative ideas.

The 2024 Recommended Budget is a step in this direction.

### **A decision-making framework**

The 2024 Recommended Budget represents movement towards the implementation of Budgeting for Resilience, or outcome-based budgeting. As we move into 2024, we will lean into the work that has come before us to ensure that the City of Geneva focuses on our core values of ensuring that the city is beautiful, prosperous, equitable, connected, and sustainable.

In preparing their budget proposals, departments were required to connect their work to their current work projects while looking to the future of their work. In 2024, we will focus the work projects not only on day-to-day operations but on the possibilities ahead for the city, as well as ways to measure whether the outcomes are being achieved.

Departments were also asked to look at what smart reductions can be made under the perimeters requested by council to stay within the 2023 spending rate. Through on-going discussions many items did not make into the 2024 budget as we have to be prudent with our time and resources. This doesn't mean that our departments are asking to frivolously spend our limited resources, it means that we have to define our why before moving any project forward.

### **Support for community priorities**

Residents rely on local government for important day-to-day services, including clean drinking water, public safety, transportation, housing, parks and outdoor spaces to enjoy, recreation facilities, and more. This recommended budget supports the basic continuation of these core services, while also seeking to address many complex issues.

### **Investments in employees and infrastructure**

To serve community successfully, local government requires talented people and well-maintained infrastructure.

While we applied an in-depth analysis to requests on our employee resources, the proposed budget includes an additional 2.75 FTEs to address urgent needs in the organization. Combined with a reduction of positions that were vacant or never filled in 2023 we have established new positions focused on succession planning, supporting our community, and providing safe spaces for our workers and residents. We will also continue to allocate resources for increased labor costs, as well as increased professional and leadership development opportunities.

There are also unknown investments that will need to occur with our employees through the four collective bargaining agreements set to expire in 2024. As well as a management agreement that has held management at the same levels since 2009. These variables are extremely challenging to budget for, and are necessary to ensure that we maintain a high-quality workforce.

Turning to infrastructure, the 2024 Recommended Budget will make several necessary – and exciting – projects possible.

These include:

- Implementation of Phase VI of the Lakefront Improvements
- Castle Street Reconstruction from Brook Street to West North
- Continuation of analyzing, cleaning, lining, and repairing of our sanitary and storm sewer systems through the City
- Replacement of old water meters with current technology
- Reviewing and upgrading our facilities to increase safety and sustainability

### **Realizing the Impact of Tough Decisions**

As mentioned, our departmental teams were involved in many tough decisions in developing a budget that did not increase the tax burden on our residents. As we looked at spending patterns, ability to complete work, and what could be done department leaders had to decide on what we could tackle in the coming year. These decisions left behind over \$17,000,000 worth of investments.

These projects are not completely lost as Departments will look to acquire resources for several projects through other means or partnerships. Some of the projects may appear in future years, when they will again be reviewed for completion within the economic parameters of the new year.

I applaud our departments for taking the time to make tough decisions while aligning their budgets with community priorities.

### **Looking Ahead**

With this presentation of my second budget, I continue to see the possibilities ahead for our city. With our values in hand the next phase of work is to align these values under the leadership set by council through prioritizing our investments, measuring our impact, and understanding what the Geneva of 2024 and beyond will be. We have a vivid history and a bright future. As stewards of the community, we must continue to make the tough decisions that will propel us forward.

## Conclusion

In closing, I invite you to dive deeper into the 2024 Recommended Budget. I hope you will join me in feeling proud about the important work we have committed to, together, while also understanding the limited financial capacity the near future will hold. I am appreciative of the work of our City Comptroller, Deputy Comptroller, and all of our teams in providing stellar service to the community as we move beyond the limitations before us.

Thank you for placing your trust in me, your City Manager. It is truly an honor to serve the City of Geneva.

Sincerely,

Amie M. Hendrix

### Business Improvement District

The Geneva Business Improvement District was formed to promote an attractive and economically viable 18.5 acre in downtown Geneva. The BID office works to ensure that the District maintains its high standards in appearance, quality and design, while remaining safe and attractive to property owners, tenants, patrons, and visitors.

Business Improvement Districts (BIDs) are privately directed and publicly sanctioned organizations that supplement public services within geographically defined boundaries by generating multiyear revenue through a compulsory assessment on local property owners and/or businesses

<b>Total Direct Costs</b>	<b>\$ 207,993</b>	<b>\$ 270,109</b>	<b>\$ 263,020</b>	

#### Notes

With the addition of the DRI landscaping beds and the herbicide ban, the volume of work for the downtown district has increased over 150%. With the larger volume of work comes an increase in the labor needed, equipment needed, supplies needed, fuel needed, and administration needed. Additions to the maintenance scope of service beginning 2023 included 37 new landscaping beds, drainage that needs cleaning and purging, trash pickup, weeding, watering, and general landscaping maintenance. These additions prompted by the LDC and the IDA to help the GBID for the 2023 calendar year as 2022 proved very difficult for 2 staff members without the entirety of the DRI project online.

In addition to City funds through the general operating budget the BID receives support through special district assessment legislation imposed on businesses in the BID District and via PILOT payments.

#### **2024 Funding Request from the Business Improvement District :\$134,500**

Economic Development Support: \$15,000

Staff benefit support (reimbursement to help cover health insurance for full-time employees. The GBID currently offers no benefits): \$15,500

Non Labor Supplies including truck repairs, Equipment repair & replacement (for example weed eaters (\$300 each), weed eater line, gloves, rain gear, winter gear, safety glasses, ear plugs, trash grabbers, trash bags, trash receptacles, tractor maintenance, cleaning supplies, snow blower, sweeper for at, watering equipment, hoses, plants, additional hanging baskets (in addition to the ones purchased through fundraising), volunteer interface: \$18,000

BID Maintenance Support in Labor and Operations: \$75,000

#### Notes

The City Manager's Budget includes the re-development of two positions to support the organization and community.

The first position is a Safety Compliance Coordinator. Organizational safety is a top priority and previously this position was an add on to the duties and responsibilities of the Wastewater Treatment Plant operator. To ensure a consistency across the organization this position is proposed in 2024. The Safety Compliance Coordinator will responsible for ensuring that a company adheres to all Public Employee Safety and Health (PESH) and Occupational Health and Safety (OHS) guidelines to reduce work-related injuries. They plan, implement, and oversee employee safety at work, conduct workplace safety training, and audit the workplace for potential causes of injury or other issues. They also develop emergency response plans and ensure compliance with safety regulations. The position will report to the City Manager and serve the entire organization.

The second proposed position is a Community Engagement Coordinator. With the shifting of responsibilities of the Special Projects Coordinator/Confidential Secretary to Human Resources as well as the removal of the partnership with the BID for communications, communications and community engagement initiatives from the City have been maintained as an add-on to other roles. Additionally a key area in Economic Development is working with business and community partners to garner support for projects. This role will be shared by PED and CM as a 50% split to the two departments.

### Police - 3120

The Geneva Police Department is an accredited law enforcement agency charged with protecting life and property within the City of Geneva. The Department is staffed across multiple divisions, including administration, patrol operations, and special operations.

The patrol division is responsible for traditional law and order operations, including crime prevention, vehicle and traffic enforcement, and investigations/enforcement of violations of state and local law. Many patrol division officers also serve on special details, including support as School Resource Officers, D.A.R.E. education officers, bicycle and foot patrol, and special event support.

The special operations division includes detectives and youth officers, and the Drug Enforcement Unit, which conducts extensive operations in the area of drug eradication. Many of Geneva's command and patrol officers hold certifications as instructors in a range of critical operations areas, which support nearly continuous training operations in the department.

The Department maintains a set of accredited policies and procedures to ensure that best practices in law enforcement are consistently maintained.

### Fire - 3410

The Fire Department serves the City with a team comprised of paid, career firefighters and hundreds of dedicated volunteer firemen and officers. The Department is made up of three fire companies, including the Hydrant Hose Company, the Nester Hose Company, and the C.J. Folger Hook and Ladder Company.

The Department is charged with a range of activity, including fire safety and prevention education, development process review, enforcement of New York State and local fire and construction codes, and firefighting. All career firefighters are New York State certified Building Inspectors or Code Enforcement Officers, providing the City with a full complement of commercial and construction inspectors handling the over 2,000 operating permits.

The Department is equipped with six state-of-the-art fire apparatus; capable of firefighting from every situation in the City and supporting our mutual-aid neighbors in nearly any terrain. Fire prevention is at the core of Department operations. Each year, hundreds of personnel-hours are dedicated to educating a range of residents from school children to seniors in fire prevention techniques.

### Office of Planning and Economic Development – 8689

With a focus on community development, the Office of Planning and Economic Development promotes and plans for the economic growth of the City of Geneva, be it through business growth or neighborhood support.

An arm of the Office is the work of the former Office of Neighborhood Initiatives (ONI) and is charged with shepherding the implementation of the City's Comprehensive Plan; providing support to Geneva's eleven neighborhood associations Foundry area residents through neighborhood initiatives; managing small business entrepreneurial resources; forwarding economic advancement initiatives; and providing robust community engagement opportunities.

The office also runs economic development activities including promotion of the City' assets, business and community partner recruitment and coordination with the Geneva Local Development Corporation, the Geneva Industrial Development Agency and Revolving Loan Fund.

Through our strategic partnerships, the City supports a host of economic development assets including the new NYS Center of Excellence in Food and Agriculture located at Cornell AgriTech and the Geneva Food and Beverage Industry Consortium. Additional assets supported include the Geneva Industrial Park, the Geneva Enterprise Development Center including the City's Innovation Kitchen, and the Technology Farm.

Through the development and administration of millions of dollars in state grant activity, including the coordination of the multi-phase redevelopment of the Geneva lakefront, the Downtown Revitalization Initiative projects, and neighborhood-based capital improvement projects, including parks enhancements, street improvements, and other public facility upgrades.

### Notes

The Buildings and Grounds Division of the Department of Public Works in 2023 includes a Supervisor, a Heavy Equipment Operator, four Maintenance Equipment Operators, a Building Maintenance Worker, and a Laborer. It is recommended that in 2024 a new position is established for an Assistant Supervisor and an additional Building Maintenance Worker position is explored to support the maintenance of city spaces in lieu of outside contracts. The additional building maintenance worker position is NOT in the proposed budget.

The Innovation Kitchen is now in the Department of Planning and Economic Development.  
Playground inspector training is now in the Recreation Department budget.

The budget for the FLX Welcome Center Lakefront building has been increased to reflect additional maintenance costs that exceed the budget agreement with New York State.

Included in the equipment line is a utility truck trailer (\$35,000) and 2 zero turn mowers (\$60,000).

#### Requests that were not recommended for 2024 by the City Manager:

Enclosed trailer: \$15,000

Toro Utility Vehicle: \$50,000

### Information Technology -1680

The Information Technology Department provides for information infrastructure development and maintenance and user support to all City departments and functions. The Department has operated under a shared services agreement with the City of Canandaigua since 2015, with Department staff providing information services to both Cities.

The Department provides for the effective, efficient operation of all network communications, including data services and Voice Over IP phone service for all City departments. Additionally, the Department manages the City's mobile phone contracts, including mobile data connections for all emergency services vehicles as part of the recent E-911 partnership with Ontario County. The Department supports a LTE wireless network for the downtown security cameras and multiple location of "Public Wi-Fi" access, as well as direct fiber connections between all City facilities.

#### Notes

The Information Technology department has 2 FTEs which are shared with the City of Canandaigua. The department also utilizes an intern during the summer months.

The Director was able to reduce public access tv to more accurately reflect the anticipated number of meetings. This line pays for IT staff to support publicly streamed meetings the title is a remnant of the previous agreement with the public access tv company.

Additional citywide security surveillance cameras are included in the in the equipment line to support the cameras being placed by the police department.

Subscriptions were previously included in other budget lines and have been broken out for more transparency. Subscription costs include ADA website compliance software, barracuda premium security software, multi-factor authentication software, servers, lakefront Wi-Fi, and cloud storage.

### Water Maintenance/Treatment – 8310/8320

The City of Geneva's fresh water is treated and distributed through the efforts of the Water Treatment Plant and the Water Maintenance Division. The Water Treatment Plant is located on NY 14 south of the City and draws water from Seneca Lake. The plant utilizes microfiber technology to filter the water, then treats it with chlorine as a disinfectant and phosphorous to stem pipe corrosion. Fluoride is added to support dental health.

The water is then pumped through City mains to a 5-million-gallon reservoir, located just west of the City limits. This provides for treated water storage capacity and pressurization of the distribution system. The distribution system consists of 82 miles of piping to over 4,000 customers, and provides services to 534 fire hydrants throughout the City.

## Wastewater – 8110/8130

An extensive collection system and two 21st Century treatment plants support the City of Geneva's wastewater treatment program. The collection system consists of 82 miles of piping infrastructure for sanitary sewer collection and an additional 30 miles of lines dedicated to the collection and transfer of area storm water. The wastewater treatment system consists of two treatment plants, utilizing cutting edge technology to support the stewardship of the Seneca Lake watershed.

The Marsh Creek Treatment Plant, located in the Geneva Industrial Park, utilizes Autothermal Aerobic Digestion (ATAD) to treat wastewater at ultra-high temperatures to reduce reliance on chemicals in the disinfection process. The plant is designed to process municipal and industrial waste, with the end product being a land-applicable bio solid; to be used for soil restoration at regional farms. The Gulvin Park Treatment Plant, located on Middle Street, utilizes limited chemicals to disinfect water when highflow stormwater levels have the potential to overrun the primary plant.

### Notes

The equipment line includes funding for a rigid sea snake and cutting tools, in addition to other small tools. The Catch Basin Maintenance line was reduced to align with actual 2022 and projected 2023 expenses. Outside contractors will be used for sewer and manhole lining. Depending on costs, this line may need a budget transfer in 2024.

An additional line has been added to breakout facility rental from other lines. This is not a new expense.

## Appendix K: Property Tax Cap Calculation

### 2024 Property Tax Cap Calculation

Category	Amount
Prior Year Levy*	\$ 8,958,010
Reserve Amount**	\$ -
Tax Base Growth Factor***	1.0064
PILOTS Receivable 2023	\$ 917,602
Torts Allowance 2022****	\$ -
Levy Growth Factor*****	1.0200
PILOTS 2024	\$ 1,672,540
Carryover*****	\$ -
Tax Levy Limit	\$ 8,459,062
Transfer of Government Function^	\$ -
Tort Allowance 2022	\$ -
Pension Allowance^^	\$ -
Allowable Levy	\$ 8,459,062

\* Prior year levy amount includes real property tax , workers comp, BID Assessment Distict, and city ommited taxes.

\*\*Reserves are required if a community overrides the tax cap and has excess funds above and byond the cap. The excess funds, are to be placed in a reserve account and may only be used as needed. If the funds from overriding the cap in the previous year are not utilized they are meant to offset the levy increase in future years.

\*\*\*Base Growth Factor is measured as a multi-year average of a community's tax base growth.

\*\*\*\*Large payments for lawsuits are excluded from limits under the tax cap.

\*\*\*\*\*The levy growth factor is calculated as 2% or CPI growth, whichever is lower.

\*\*\*\*\*Any unused levy growth may be carried over one year

^Governments who achieve savings through consolidation may apply to the state for a cap credit.

^^A portion of pension growth (anything over 2 percentage points) is credited against the cap.
