## Mission

The City of Geneva provides efficient and responsible local government services allowing everyone to enjoy the benefits of living and working in our uniquely urban city.

## Vision

We envision the City of Geneva as a place that is:

- **Beautiful:** By leveraging our historic assets and natural resources to create a vibrant, welcoming, and attractive city center.
- **Prosperous:** By supporting businesses, educational resources, and workforce development initiatives in a manner that fosters opportunity for all.
- **Connected:** By ensuring our downtown, waterfront, and neighborhoods are seamlessly integrated, support multimodal users and provides a safe, walkable, and pedestrian friendly core.
- **Equitable:** By providing a range of services and amenities available to all community members and visitors, regardless of age, race, and income.
- **Sustainable:** By serving as stewards of our natural and historic resources in a manner that balances preservation, long-term growth, and community development.

## Core Values

As residents, city staff and appointed & elected officials of the City of Geneva, our decisions and actions will be guided by these Core Values:

- **Safety:** We strive to create a secure environment for all residents, staff, and visitors by implementing proactive measures and maintaining vigilant oversight. This commitment ensures that our community can thrive in a setting where individuals feel protected and at ease.
- **Innovation:** We embrace change and encourage creative solutions to meet the evolving needs of our community. We aim to enhance the quality of life in Geneva through the development of new ideas, technologies, and processes that deliver effective and efficient services.
- **Caring & Respect:** In every interaction, we prioritize empathy and understanding, treating all individuals with dignity and kindness. We are dedicated to building a community that values diversity and inclusiveness, where every voice is heard and respected, and where differences are celebrated.
- **Integrity & Honor:** We are committed to transparency, honesty, and ethical behavior in all our actions. By upholding these principles, we build trust with our community and ensure accountability in all our decisions. Integrity and honor are the cornerstones of our governance.
- **Service & Stewardship:** We are dedicated to serving the public with excellence, going above and beyond to meet the needs of our residents. As stewards of community resources, we manage and utilize them responsibly, ensuring sustainability and future prosperity for the City of Geneva.

## City of Geneva, New York 2025 Community Investment Plan City Manager's Budget Message on Adopted Budget

*"Alone, we can do so little; together, we can do so much" – Helen Keller*

November 8, 2024

Dear Mayor Valentino, Members of Council, Staff, Residents, and Visitors of the City of Geneva,

Within the following pages please find the 2025 budget adopted by the Geneva City Council on October 23, 2024. This budget provides resources for the City Departments to continue their work in catching up on items that have been deferred over many years.

### **The numbers**

The total 2025 Operating Budget invests just over \$20 million in City operations. The tax rate has decreased to \$12.16 per \$1000. Which for the homeowner of a median family home reflects a budget savings of over \$275 from 2024. The total operating budget represents a slight increase over the 2024 Approved Operating Budget.

The total 2025 Recommended Capital Budget is \$11.9 million across all funds. This represents a commitment to continuing to support our capital. The total Four-Year Capital Improvement Program is \$36 million in planned spending supporting nearly 40 capital projects across the five years.

The total 2025 Sewer Fund Budget is \$5,534,798. This represents a 5.1% spending increase from 2024. The rate for users will grow by 2.5%.

The total 2025 Water Fund Budget is \$3,316,999. This represents a 6.7% spending decrease from 2024. Despite the spending decrease. Due to decreased demand in water usage and growing costs, our rates will increase 1.5% in 2025.

### **Changes from the proposed budget to the adopted budget**

The City Council met in four sessions to review the proposed budget and requested a reduction of just over \$1 million from the proposed budget to the adopted budget. The proposed budget decreased expenses through staff, equipment and service reductions while increasing revenue projections to meet the goal of sustaining a tax levy of no more than 5%, a reduction of 14.5% from the proposed budgets' tax levy increase of 20.5%. The changes from the proposed budget to the adopted budget can be found on the next page.

### **The year ahead**

With the reductions implemented in the adopted budget, city staff will continue to find ways to meet the needs of the City, and at the same time we must be looking ahead beyond the five-year plans in the capital and our own budget and strategic planning, to the commitment of City residents to the future of service delivery and the expectations contained in our financial plans.

Staff remain committed to taking care of what we have and ensuring that any new infrastructure and facilities will meet the needs we anticipate in our rapidly evolving future. We have weathered many storms in the past few years and creating a community based on resilience remains at the heart of our spending for 2025. The adopted budget outlines substantial one-time expenditures aimed at addressing some of the City's most pressing needs.

Key components still include:

- Maintenance across various city facilities and infrastructure: This allocation will fund storm mitigation measures as we assess our numerous systems. It encompasses the continuation of street resurfacing, updates to boilers within City buildings, roof repairs on several structures, as well as repairs and enhancements to our parks and playgrounds. These are just a few examples of the significant capital investments incorporated within the budget.
- Implementation of a fleet management plan: This strategy will address the replacement of aging fleet vehicles, an endeavor that incurs rising costs each year. This strategy looks to not only replacing our aging cars but to ensure that we are making data informed decisions regarding the replacement of our vehicles.

### **Constraints require choices**

Within the proposed and adopted budgets we have projected increased revenues along with increased expenses. Forward progression is not without constraints, and we will experience these constraints for many years to come.

We will continue to explore additional revenues to expand our services, as well as new ways to share or reduce services. Currently service expansion is not part of the immediate future of the city. We continue to move towards investing our liquid assets through new funding mechanisms, writing and maintaining more grant resources, and leveraging our partnerships to seek support from our local, state, and federal partners. These revenue streams will not be fully realized in 2025 and there is more work to be done.

As a community, we must choose what resources and services are expected of our government. These choices will not be easy.

### **Concluding remarks**

As I noted in the proposed budget, the budget process encapsulates a blend of frustration, pride, challenges, and opportunities. This document articulates the priorities and values of our City, extending beyond mere words on a page. It illustrates how each community member contributes to the enhancement of our streets, public safety, parks, playgrounds, and more, thereby creating a beautiful and prosperous community. This budget serves as an opportunity to address the complexities inherent in community living, transforming them into a coherent investment plan.

I appreciate Council's review of the proposed budget and their on-going support of the work of staff and the community as we pinpoint areas for potential service modifications due to changing resources, whether through reductions, shared services, or alternative strategies. The budget remains a guiding document that reflects the commitments and vision of the city.

I am extremely grateful to the department heads and staff members who developed fiscally responsible spending plans with the goal of sustaining operations to the Geneva community. As noted, this budget season was characterized by rising costs and fluctuating revenues as we continue our operations and strive to address service and infrastructure delivery needs. I have full confidence that our staff will continue to serve as responsible guardians of local funding while providing safe, compassionate, and respectful services to our community.

Regards,

*Amie M. Hendrix*

### Business Improvement District

The Geneva Business Improvement District was formed to promote an attractive and economically viable 18.5 acre in downtown Geneva. The BID office works to ensure that the District maintains its high standards in appearance, quality and design, while remaining safe and attractive to property owners, tenants, patrons, and visitors.

Business Improvement Districts (BIDs) are privately directed and publicly sanctioned organizations that supplement public services within geographically defined boundaries by generating multiyear revenue through a compulsory assessment on local property owners and/or businesses

<b>Total Direct Costs</b>	<b>\$ 275,742</b>	<b>\$ 263,020</b>	<b>\$ 271,010</b>	

### Notes

The BID funding request is divided into four areas.

Assessment District Funding - this is the amount of funding that is levied from the non-single family homes within the Business Improvement District.

BID Payment In Lieu of Taxes Share Funding - this is provided to the BID when a property has a PILOT agreement within the BID area.

Economic Development Funding - this funding provides additional support to Economic Development in the downtown area. In 2025 the BID is requesting \$15,000 for Economic Development services to include Commercial Design and Advisory Team, Downtown Event Review Committee, business & property recruitment & retention, mentoring, support, and education for new and existing businesses, beautification initiatives to increase workforce & resident placement, initiatives to increase foot traffic, events, grants.

Beautification and Maintenance - this funding provides support for maintenances and beautification services within the BID area provided by the BID. The total request for this funding in 2025 is \$239,610. This funding would provide equipment including - V Plow (\$4,170), Plants (\$7,000), Repair and Maintenance on the current truck/tractor (\$5,000), Hanging Baskets (\$4,200), Ongoing equipment repair and replacement for misc. items (weed eater line, gloves, rain gear, winter gear, safety glasses, ear plugs, trash grabbers, trash bags, trash receptacles, cleaning supplies, snow blower, volunteer management software, watering equipment, hoses, plants, etc.), 5.5 FTEs (\$214,240) to support Garbage removal, loose trash & cigarette butt pickup, weeding, watering, mowing, trimming, debris in bioswale landscaping, removal of animal waste, deceased animals, maintain tables and chairs, maintain holiday decorations, assist the DPW with bucket truck work including but not limited to: banners, planters, holiday decorations.

## Appendix B: General Fund Expenditures Itemized

### Requests that were not recommended for 2025 by the City Manager:

After reviewing the initial request of \$239,610, the Business Improvement District Executive Director provided a modified request to provide a reduced amount of service, eliminating landscaping maintenance. The service to be provided by the BID would be shoveling & salting, hanging basket and planter maintenance, garbage pick up, debris and loose trash pick up, holiday displays (care and hanging), light pole banners, and volunteer management of volunteers assigned to the above tasks. This revised cost will employ fewer employees with non-labor costs being \$15,000 and labor costs being \$92,600.

### 2024 Work Projects

Projects	Progress	Goal	Details
Commercial Design and Advisory Team Leadership: meeting at least monthly to lead the downtown sign and exterior modifications approval process	We have had 10 approval meetings so far in 2024 plus 11 consulting meetings. The consulting meetings were to help complete the applications (3 of the meetings were to provide translation support).	24 potential CDAT meetings per year, plus additional staff (and often committee) availability for consultation before the formal meeting.	The BID team works with the City to improve our system, better regulate signage, and support new businesses. Application update is in progress. There are challenges with no way to enforce signage regulations at the committee level. The committee needs additional coaching in 2025.
Share with the City GBID grant software access	Work together to improve empirical data for the city and the BID.	Placer.ai allows the city and BID to partner to gather information.	Arc GIS - Placer.ai has been secured by the BID.
Provide for ongoing maintenance and beautification services in the downtown BID district on the north side of 5 & 20	The GBID has taken on additional duties as we have been able, assisting with lakefront maintenance and contracting a landscaper to work 8 hours.	Ongoing seasonal displays are updated and areas are clean. Every street in downtown is weeded every 7 days (in rotation).	Due to lack of seasonal help weeding has not been as consistent. Every street is now weeded at 10-14 days.
The BID agrees to deliver a report of activities based upon this budget allocation at the end of each quarter	Reports have been provided at the end of the 1st and 2nd quarter.	Reports due to the City at the close of the Quarter by the 15th of the following month.	Reports include updates on all services of the BID contract.

## Appendix B: General Fund Expenditures Itemized

Projects	Progress	Goal	Details
Downtown Event Review Committee Leadership: organizing and meeting at least quarterly to promote downtown event spaces and businesses, supporting property and merchant feedback, and leading downtown events to support business	5 meetings so far in 2024: Ironman - advertisement & maps for participants and their website. Relay for Life, Crusin' Night - SWOT analysis with businesses & City. First Friday - Traffic analysis with downtown merchants. Linden Wine Series - impact to surrounding businesses.	Using the event list provided by the City and the GBID contacts, we communicate with the various events organizational teams to help provide information on restaurants and experiences downtown. Meet with business owners to evaluate the impact on foot traffic and sales.	
Hometown Hero Banner Program	Banners were hung in 2024 after a new program was launched in partnership with the City, American Legion, and volunteers.	Banners are hung and program is reviewed.	Over 160 hours of BID staff time was designated to this program. A program review will occur this fall.
Property Owner and Tenant Empowerment Leadership: support DEI initiatives to recruit diverse property owners and employees.	As of August 2024 we have 35 MWBE locations in Downtown 5 of which opened this year.	At least two new businesses opened owned by MWBE owners	Continue to work with Sim Covington and Councilor Whitfield to continue creating "all are welcome" events and messaging.
Support downtown events such as Fall Festival, Jingle Week, Crusin' night and First Friday to increase foot traffic and increase sales of downtown merchants.	Crusin' Night was held on July 26 and hosted over 8,000 guests; 4 First Friday events have been held as of August 6, 2024 - each subsequent event has drawn a larger crowd and businesses have seen an uptick in sales that 1st Friday. Other key events: Wheels on the Seneca, Garlic Festival, Linden Wine Series.	To find the most effective way to increase foot traffic and sales for both retail and restaurant.	BID looks forward to being able to provide more imperial data as Placer.ai comes on line. Feedback from both sponsors and vendors is that more frequent, consistent events are more beneficial for business.

### City Manager – 1230

The City Manager's office assist and directs department leadership to develop strategies and implement programs and services that align to the direction set forth by the Geneva City Council. The City Manager provides direct oversight to all City Departments except the City Clerk which is overseen by City Council. The City Manager is responsible for day-to-day City operations, preparation and management of the city budget, and legislative support to the Geneva City Council.

### Notes

\* City Manager staffing includes a City Manager, Safety Coordinator, and .10 FTE for support to the City Manager shared with Human Resources. Support to the City Manager includes scheduling, billing for the CM office, and limited communications. The Safety Coordinator is a three-year position to assist in the development of a revised City-wide Safety program.

\* Training for 2025 will include access for training for all City staff, conference attendance for staff members, coaching services for members of the management team, and training for supervisors.

### Requests that were not recommended for 2025 by the City Manager:

\* \$94,000 for a Community Engagement Coordinator salary and benefits; Although initially funded in 2024 this position funding was removed prior to hire. The City Manager still believes that a position focused on community engagement, communications, website coordination, and marketing is crucial to moving the City forward and expands the current efforts, however this was not recommended for funding in 2025 due to Council's decision. This position had been previously recommended as a shared position to assist both with communications and marketing as well as with community engagement for the Planning and Economic Development Department. Communications at the current level will continue with stipends being provided to staff completing the communications work.

### Requests that were not recommended for 2025 by the City Manager, continued:

- \* \$75,000 for a Comprehensive Plan Update Consultation; This request was not recommended at this time and should be reviewed in future years to ensure that the plan is current with the City operations.
- \* \$55,000 for Performance Management Software and Training: This request was not recommended at this time but should be reviewed in the future. The goal of this software/training program is to better develop performance metrics at a population and programmatic level. As part of the 2025 budget book, departments have begun to identify not only work projects but measurements. Training and software to track this information will prove helpful in future years to create a more robust program.
- \* \$25,000 for National Community Survey benchmarking survey to create a data set which is evidenced based and engages residents, measures City performance, and guides economic recovery and growth.

### Police - 3120

The Geneva Police Department is an accredited law enforcement agency charged with protecting life and property within the City of Geneva. The Department is staffed across multiple divisions, including administration, patrol operations, and special operations.

The patrol division is responsible for traditional law and order operations, including crime prevention, vehicle and traffic enforcement, and investigations/enforcement of violations of state and local law. Many patrol division officers also serve on special details, including support as School Resource Officers, D.A.R.E. education officers, bicycle and foot patrol, and special event support.

The special operations division includes detectives and youth officers, and the Drug Enforcement Unit, which conducts extensive operations in the area of drug eradication. Many of Geneva's command and patrol officers hold certifications as instructors in a range of critical operations areas, which support nearly continuous training operations in the department.

The Department maintains a set of accredited policies and procedures to ensure that best practices in law enforcement are consistently maintained.

### Notes

\*Currently the Department is operating at the minimum staffing level recommended by a recent study completed by DCJS. The department is requesting an additional uniformed road patrol officers to patrol assigned areas to prevent and detect crime. The addition is thought to lessen the burden of overtime costs. Additionally, a second School Resource Officer has been funded by the Geneva City School District, which would shift work from current police officers. There are services and details that are not being conducted by the GPD due to staffing shortages including targeted crime reduction, pro-active warrant/drug enforcement, bicycle patrol, foot patrol in downtown.

\* A new building specific line has been created for Public Safety Building improvements within buildings and grounds, removing building improvements from the Police Department budget. Within that budget two improvements will be made including \$5,500 for new carpeting and \$25,000 for shooting lane repairs at the range.

\* Equipment Maintenance Expenses include the following: Axon Body Worn Cameras (\$35,000), Axon Tasers (\$15,000), Axon Fleet (\$23,000), KeyStone (\$7,000), LiveScan (\$11,000), and L-Tron (\$3,600).

Equipment Line includes computer upgrades to be completed in 2025.

\* Two vehicles will be purchased in 2025. These vehicles will be purchased through a fleet management program. This is a new program for the City. We anticipate these costs to be lower than previous costs associated with fleet management.

\* General maintenance funding includes funding for three (3) officer desks for the Sergeants office and \$3,000 for general maintenance supplies.

\* School Crossing Guards will receive an increase in funding due to new seasonal rates.

### Police Budget Advisory Board Recommendation:

The PBAB members along with Chief Eveland and Comptroller Newcomb reviewed the Police Department 2025 Budget submission provided by Chief Eveland. Based upon the advisory board's work throughout 2023 and 2024 the PBAB supports the importance of the Record Management System (RMS) update and changes to increase the efficiency and accuracy of data collection throughout the daily activities of the police department. The PBAB feels having more accurate and detailed information will support the Police department in their efforts for grant funding, staffing level reviews, and other ongoing needs of not only the department but the Community as well. In addition, the PBAB members would like to recommend the hiring of a social worker within the Police Department to support officers in response to the increase in mental health calls. The members are cognizant of the additional financial implications of such a position, and have discussed various potential options of funding including a) a shared position with surrounding agencies, b) potential grant funding to offset cost, or c) running the program as a Pilot program for two (2) years and utilizing one-time funding.

### Requests that were not recommended for 2025 by the City Manager:

- \* \$27,000 for installation of electric at the shooting range. This request was not recommended in 2025. The repair work on the surfacing of the range is recommended and is located in the Buildings and Grounds budget. The electric installation can be reviewed for implementation in future years.
- \* \$94,000 for one (1) additional uniformed road patrol police officer; cost per new police officer is estimated as follows: \$83,300 annual salary and benefits, \$4,500 for equipment, \$6,150 for training was not recommended for 2025. While we have made progress to improve our staffing levels the movement at the Command Staff and Sergeant level will result in additional vacancies at the police officer level in 2025. Once these vacancies are filled and staffing is stable this request should be reviewed further.
- \* \$100,000 + for one (1) social worker as recommended by the PBAB. This request was not recommended in 2025. If this is a program that the department would like to implement further analysis of cost and programming should be explored as well as the key performance indicators that would be expected of this position.

### Fire - 3410

The Fire Department serves the City with a team comprised of paid, career firefighters and hundreds of dedicated volunteer firemen and officers. The Department is made up of three fire companies, including the Hydrant Hose Company, the Nester Hose Company, and the C.J. Folger Hook and Ladder Company.

The Department is charged with a range of activity, including fire safety and prevention education, development process review, enforcement of New York State and local fire and construction codes, and firefighting. All career firefighters are New York State certified Building Inspectors or Code Enforcement Officers, providing the City with a full complement of commercial and construction inspectors handling the over 2,000 operating permits.

The Department is equipped with six state-of-the-art fire apparatus; capable of firefighting from every situation in the City and supporting our mutual-aid neighbors in nearly any terrain. Fire prevention is at the core of Department operations. Each year, hundreds of personnel-hours are dedicated to educating a range of residents from school children to seniors in fire prevention techniques. ☐

- \* Equipment included in 2025 Equipment Purchases: Four (4) Self Contained Breathing Apparatus (\$40,000), Two (2) Gas Meters (\$8,200) ; One (1) Fire Extinguisher Simulator/Trainer (\$17,000); Continued Radio Replacement (\$45,000); One (1) Jaws of Life Tool (\$20,000); One (1) Gear Hose Washer/Dryer.
- \* Personal Protective Equipment includes replacement of fifteen (15) sets of fire protection gear for department; this is an annual replacement plan to replace all gear within five (5) years and then update an annual replacement program. Twenty (20) sets were purchased in 2024 and twenty (20) sets in 2023. Fifteen (15) sets are planned to be replaced in both 2025 and 2026, and ten (10) sets in 2027. Beginning in 2028 five (5) sets will be replaced on an annual basis.
- \* Computer Costs include department specific software including Keystone, RMS, and Alpine.
- \* Overtime increases account for negotiated salary increases as part of collective bargaining processes.
- \* The fleet management line includes funding for one (1) UTV and one (1) fire inspection Truck. The request for the UTV was part of the 2025 equipment replacement plan. Fleet management is a new line and fleet purchases will be placed in this line going forward.

### **Requests that were not recommended for 2025 by the City Manager:**

- \* \$70,000 for one (1) new vehicle for the Deputy Fire Chief; this request was not recommended for 2025 and will be reviewed as part of an overall fleet strategy review. This review will include the potential of working with a contractor to provide fleet services and management including a review of current vehicles. This request would replace a 2016 Chevrolet Tahoe.
- \* \$8,000 for two (2) additional thermal imaging cameras; this request is not recommended at this time. A discussion was had with the Deputy Fire Chief and Fire Chief to reduce the total request and this was provided as a lower priority than the items requested above.
- \* \$6,200 for (1) smoke injection fan; this request is not recommended at this time. A discussion was had with the Deputy Fire Chief and Fire Chief to reduce the total request. Similarly to the thermal imaging cameras, this was seen as a lower priority than the equipment above.
- \* \$414,000 for three (3) additional full-time firefighters; cost per new firefighter is estimated as follows: \$96,800 annual salary and benefits, \$7,800 for equipment, \$33,400 for training; this request was not recommended for 2025.
- \* \$115,000 for one (1) water suppression and fire rescue boat; this request was not recommended for 2025 as the purchase of this equipment will have on-going costs associated with the equipment use including training and programming for water rescue that is not currently part of our operations as an organization. Currently water rescue is conducted by the Seneca County Sheriff's Department and Border City Volunteer Fire Department. The request would allow the City of Geneva to support an apparatus to provide rescue or fire suppression capabilities. The addition of this capability would not need added personnel, only additional training.
- \* \$1,115,000 for one (1) new fire apparatus; this request was not recommended for 2025 and will be reviewed as part of capital plan discussions. Currently it takes 3+ years to build a fire apparatus making a ban payment not due until 2028 if orders were placed in 2025. This request would replace Engine 1111 a 19 year old apparatus that is recommended for replacement.
- \* \$30,000 for active shooter protection; this request was not recommended for 2025 as grant funding can be sought through FEMA's Homeland Security Grant Program, Assistance to Firefighters Grants, or US Department of Health and Human Services SIREN Act funding.
- \* \$15,000 for additional training funds; Training funds will include one (1) new recruit, advanced training for officer and instructors, code enforcement training, and in-service training. A recommendation to reduce the total training amount was made due to 2023 actual expenses and current year (2024) year to date spending as of July 31, 2024. If additional trainings are needed, this line can be re-evaluated and/or training expenses may come from the City Manager's training budget.
- \* \$2,500 for fire prevention programming; This amount was reduced for 2025 based on actual expenses in 2023 and current spending as of 7/31/2024.

## Office of Planning and Economic Development – 8689

With a focus on community development, the Office of Planning and Economic Development promotes and plans for the economic growth of the City of Geneva, be it through business growth or neighborhood support.

An arm of the Office is the work of the former Office of Neighborhood Initiatives (ONI) and is charged with shepherding the implementation of the City's Comprehensive Plan; providing support to Geneva's eleven neighborhood associations Foundry area residents through neighborhood initiatives; managing small business entrepreneurial resources; forwarding economic advancement initiatives; and providing robust community engagement opportunities.

The office also runs economic development activities including promotion of the City' assets, business and community partner recruitment and coordination with the Geneva Local Development Corporation, the Geneva Industrial Development Agency and Revolving Loan Fund.

Through our strategic partnerships, the City supports a host of economic development assets including the new NYS Center of Excellence in Food and Agriculture located at Cornell AgriTech and the Geneva Food and Beverage Industry Consortium. Additional assets supported include the Geneva Industrial Park, the Geneva Enterprise Development Center including the City's Innovation Kitchen, and the Technology Farm. Through the development and administration of millions of dollars in state grant activity, including the coordination of the multi-phase redevelopment of the Geneva lakefront, the Downtown Revitalization Initiative projects, and neighborhood-based capital improvement projects, including parks enhancements, street improvements, and other public facility upgrades.

### Notes

\* Salary has been increased with the increase of hours for the grant coordinator which was a previous position shared with the Assessor's office. This position is partially funded with grant funding and partially funded with state and local resources.

\* Increase extra help/seasonal rate of pay for 2025; starting rate will be \$18.00/hour for first year; returning salary will be \$.50 increase for each additional returned year. Seasonal pay will be capped at \$21.00/hour for those that have been on multiple years or are retired from the City and returning for seasonal support.

\* Outside contractors: This funding is used for grant related support such as engineering and survey costs, community forums, consulting fees associated with community engagements, assistance for request for qualification releases, etc. This has been increased in anticipation of additional grants being sought in 2025 and beyond.

### Requests that were not recommended for 2025 by the City Manager:

\* Additional \$2,000 for extra help was not recommended. This was not recommended in 2025 based on actual expenses from previous years and year to date spending.

\* \$1,500 reduction in materials and supplies for the Farmer's Market. This was not recommended in 2025 based on actual expenses from previous years and year to date spending.

\* \$8,000 for Concert Series under Events. This budget was reduced by the requested \$8,000 which is typically received as donations from local businesses. Often donations are received to offset these costs and if no-donations are received council could decide to use local funding to continue the series.

### 2024 Work Projects

Projects	Progress	Goal	Details
Revolving Loan Fund: Convene committee, monitor programming, determine grant round feasibility for 2024.	In-Progress	Committee meets at least 2x in 2024; Feasibility is determined and executed if agreed upon.	As of August RLF has met twice and granted one loan in 2024, a third meeting is being planned to review policies and follow up existing loans. Loans are a reuse of CDBG funds granted to the City and loaned out in the past.
Farmer's Market Study Implementation: Develop FM Advisory Committee and determine design for future FM site, if moving forward find alternative funding.	Stopped	Decision made on FM strategy and team meets at least 2x.	This activity was stopped in February 2024 as the council retreat discussion did not lead to favorability of this implementation.
Marina to Construction: Review final design, bid construction, determine feasibility, complete construction contracting.	In-Progress	Finalize design, solicit bids, construction schedule is in place.	As of August dock system contractors have been pre-qualified and RFP is prepared for release.
Boat Launch Redesign: create bid ready documents and seek funding.	Paused: Review in Q2 2025	Grant applications is submitted for boat launch.	Paused until Marina determination is finalized.
Farmer's Market Administration: Set dates, recruit vendors, collect fees, hire and oversee extra help, support nutrition program.	In-Progress	Farmer markets are successful; 2 helpers are hired, applications are turned in on-time.	2024 Farmer's Market season has been a success, number of vendors has increased as has use of the SNAP benefits at the market providing local food to low income families.

Projects	Progress	Goal	Details
Departmental Staffing: Bring on additional staff person to assist with community engagement, hire summer intern, consider a VISTA.	In-Progress	Staffing is increased within the department through paid and volunteer members.	PED expects to hire a Grant Coordinator and hosted 2 summer internships and started work on Volunteer Corps with LDC to involve more Geneva residents.
MicroEnterprise Assistance Program Grant: Expend all funds to MAP participants by November.	In-Progress	All funds are expended by November.	All funds allocated and tracking expenses with funded businesses.
Property Disposal: Move key properties to development and sell other properties via auction.	In-Progress	Key parcels are put out on a RFP (Crystal St. and OEO) and others are sold by auction resulting in properties back on the tax roll.	Auction went better than expected, all sold properties drew reasonable prices. More are under development that will increase the tax base and provide housing. RFQ for OEO and RFP for Crystal St. set for Q3 release.
Recreation Complex Plan: Scope a project to review the recreation complex and work with consultants on a strategy for maximizing the facility.	In-Progress	Final report and recommendations are presented to council.	Rec. Complex Plan RFP used to select contractor who kicked off work Aug. 15th, project is on track for 2024 completion.
Grant Administration: Provide coordination to existing and future grants within the City including DRI, GIGP, Marina BIG, Tunnel, Lead Service Line, CDBG, MAP and others.	In-Progress	Grants are closed out with minimal findings; clear records are ready for grant audits.	PED is currently managing 12 large grants with various reporting requirements. 1 grant was closed out in 2024, we expect one more to close soon.

### Information Technology -1680

The Information Technology Department provides for information infrastructure development and maintenance and user support to all City departments and functions. The Department has operated under a shared services agreement with the City of Canandaigua since 2015, with Department staff providing information services to both Cities.

The Department provides for the effective, efficient operation of all network communications, including data services and Voice Over IP phone service for all City departments. Additionally, the Department manages the City's mobile phone contracts, including mobile data connections for all emergency services vehicles as part of the recent E-911 partnership with Ontario County. The Department supports a LTE wireless network for the downtown security cameras and multiple location of "Public Wi-Fi" access, as well as direct fiber connections between all City facilities.

#### Notes

- \* The salary line includes the addition of a second administrative assistant for the Department. The Responsibilities of this new position will include coordination of FEMA reimbursement documents, support to DPW supervisors for preparing reports, fiscal monitoring, and customer service.
- \* NYCOM DPW training in Fall 2025 will be out of the City Manager's training line, if this becomes an on-going expense it will be added to future Engineering budgets.
- \* \$230,000 in Engineering Survey cost breakdown includes funding for tree inventory (\$85,000); Survey of John St, Rose St., Folger St. and begin review of design work for Cherry St., Elmwood St., and Clinton St. (\$100,000); Costs for Feasibility and Costing Study of DPW Facility (\$45,000).

#### Requests that were not recommended for 2025 by the City Manager:

- \* 1 new vehicles for \$46,000 for DPW Director; This was not recommended at this time as we explore fleet management options, we will review current conditions and create a replacement plan as determined by the fleet manager. The vehicle requested for replacement is a 2015 Ford Escape.
- \* Additional \$100,000 for design work for Cherry St., Elmwood St., and Clinton St. This design work is key to the capital project and should occur in 2026 to maintain the capital schedule.
- \* Salary increases for the Director at an additional 5% increase. Management employees and management benefits were reviewed in 2024 and a process has been put in place to ensure competitive salaries and benefits for supervisors. As part of this process no management employee will receive a increase less than the lowest ratified contract in 2025 and follow a 3 year plan to ensure salaries are competitive.
- \* Overtime payment for the Jr. Engineer. This was not recommended as this staff member is a salaried employee and the work on Castle Street for survey and design is part of the scope of work for salaried employees.

### Water Maintenance/Treatment – 8310/8320

The City of Geneva's fresh water is treated and distributed through the efforts of the Water Treatment Plant and the Water Maintenance Division. The Water Treatment Plant is located on NY 14 south of the City and draws water from Seneca Lake. The plant utilizes microfiber technology to filter the water, then treats it with chlorine as a disinfectant and phosphorous to stem pipe corrosion. Fluoride is added to support dental health.

The water is then pumped through City mains to a 5-million-gallon reservoir, located just west of the City limits. This provides for treated water storage capacity and pressurization of the distribution system. The distribution system consists of 82 miles of piping to over 4,000 customers, and provides services to 534 fire hydrants throughout the City.

### 2024 Work Projects

Projects	Progress	Goal	Details
EPA Unregulated contaminant monitoring	In-Progress	Meet or exceed regulatory requirements with continued development of trained and skilled WTP staff.	Have continued to maintain monitoring.
Stablize, repair, and repoint WTP buildings	In-Progress	Facilities are kept up to date.	Facilities have been kept up to date and repairs made as needed.
GAC and Disinfectant Engineering Study	In-Progress	Completion of study with layout of next steps.	
Design and implement hydrant flushing program	In-Progress	Program implementation and flushing of 75% of hydrants in the city.	Hydrants continued to be flushed and valves repalced.
Inspection of lead water service replacement	In-Progress	Prepare and maintain a complete water service inventory list based on anticipated EPA and NYSDOH regulatory changes to Lead and Copper Water Service Line Rules.	Water service inventory list has been maintained and updated.
Complete water service disconnects	In-Progress	Complete water disconnects in a timely fashion.	Water disconnects have been completed.
Collect quarterly water meter readings	In-Progress	Collect water meter readings on a quarterly basis.	Readings have been collected.
Replacement of water meters (capital project)	In-Progress	Meters will be replaced with a new system.	Replacements continue.

### Wastewater – 8110/8130

An extensive collection system and two 21st Century treatment plants support the City of Geneva's wastewater treatment program. The collection system consists of 82 miles of piping infrastructure for sanitary sewer collection and an additional 30 miles of lines dedicated to the collection and transfer of area storm water. The wastewater treatment system consists of two treatment plants, utilizing cutting edge technology to support the stewardship of the Seneca Lake watershed.

The Marsh Creek Treatment Plant, located in the Geneva Industrial Park, utilizes Autothermal Aerobic Digestion (ATAD) to treat wastewater at ultra-high temperatures to reduce reliance on chemicals in the disinfection process. The plant is designed to process municipal and industrial waste, with the end product being a land-applicable bio solid; to be used for soil restoration at regional farms. The Gulvin Park Treatment Plant, located on Middle Street, utilizes limited chemicals to disinfect water when highflow stormwater levels have the potential to overrun the primary plant.

### Notes

- \* Increase in overtime is due to contractual obligations pending salary increases.
- \* Increase extra help/seasonal rate of pay for 2025; starting rate will be \$18.00/hour for first year; returning salary will be \$.50 increase for each additional returned year. Seasonal pay will be capped at \$21.00/hour for those that have been on multiple years or are retired from the City and returning for seasonal support.
- \* Equipment to be purchased in 2025 includes \$180,000 for backhoe.
- \* Outside contractors includes funding for sewerizing televising and clean out work.
- \* Preventative maintenance includes funding for cutting roots.

Tax Levy Limit	\$ 9,852,787
Transfer of Government Function^	\$ -
Tort Allowance 2024	\$ -
Pension Allowance^^	\$ -
Allowable Levy	\$ 9,852,787

\* Prior year levy amount includes real property tax , workers comp, BID Assessment Distict, and city ommited taxes.

\*\*Reserves are required if a community overrides the tax cap and has excess funds above and byond the cap. The excess funds, are to be placed in a reserve account and may only be used as needed. If the funds from overriding the cap in the previous year are not utilized they are meant to offset the levy increase in future years.

\*\*\*Base Growth Factor is measured as a multi-year average of a community's tax base growth.

\*\*\*\*Large payments for lawsuits are excluded from limits under the tax cap.

\*\*\*\*\*The levy growth factor is calculated as 2% or CPI growth, whichever is lower.

\*\*\*\*\*Any unused levy growth may be carried over one year

^Governments who achieve savings through consolidation may apply to the state for a cap credit.

^^A portion of pension growth (anything over 2 percentage points) is credited against the cap.
